Week 51

NEWS of the RACK

2018

key events • new modules • developer news • module videos • contests • and more

Hello everyone in Rack Land,

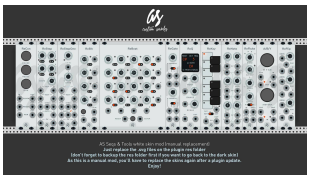
VCV Rack now has a forum outside of Facebook https://vcvrackforums.dx.am/. Although this has permission from Andrew Belt to use the name VCV, it is still unofficial. I think it's a hallmark of popularity when forming secondary forums. In any case, it will be exciting to see how many of the 15,739 members sign up for this new forum. Forum founder James Tibbets ultimately wants to create a forum independent of facebook. Anyway, I signed in and wish James all the best.

And now to the news.

Developer News and other News

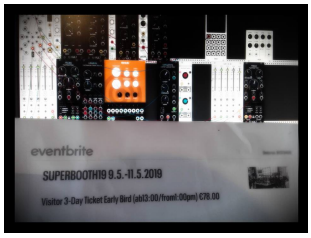
Some confusion was caused by an announcement by Andrew Belt that after the release of **Rack 2.0** there will be a **paid VST version** and support for Bridge will be discontinued. Meanwhile it has been clarified that VCV-Rack will remain freeware and the VST version is optional and a new product.
https://www.facebook.com/groups/vcvrack/permalink/288946898432128/

AS Modules has released a **white skin** for its paid-for **AS-Seqs-n-Tools** modules.



https://drive.google.com/file/d/1PNDE3luOJyOIrskY8VSEPk5mr_B5ZZDk/view?usp=sharing

From the **9th to the 11th of May** the **Superbooth**, a convention for synthesizers and especially modular systems, takes place in **Berlin**. Omri Cohen has suggested that we could meet there to have a drink. We would be



happy about anyone who comes across it. **By the end of the month, the tickets are also discounted.**
https://www.superbooth.com/en/landing.html

As announced, Ben de Groot aka ablaut has released the album **Winter Solstice Drone** on Bandcamp. On it are 18 artists with Drones in B, which were created using VCV rack. The playing time is over 5 hours.

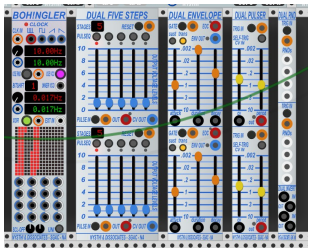
New modules



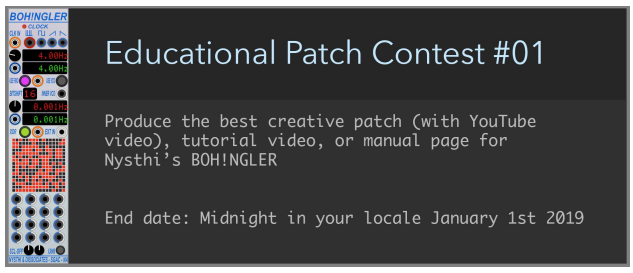
Nysthi has released several versions within a week and is now at **0.6.35**. New additions include **DUAL PULSER**, **DUAL FIVE STEPS**, **DUAL ENVELOPE** and **DUAL RND**, all modules based on the Buchla 208. In addition, the mystery module **BOH!NGLER**, for which there is a challenge, but more on that later.
https://github.com/nysthi/nysthi

Alikins has released version **0.6.5** and new is the module **Hovered Value**, which displays the value of parameters when crossing over with the mouse.
https://github.com/alikins/Alikins-rack-plugins

Challenges

Edition 22 of the **Very Cool Patch Challenge** is once again a special edition without a given module. The challenge this time is to use only **external sound sources** or **samples**. This can be done using a sampler module or sending external audio over the bridge to the VCV rack. Then VCV-Rack can also be used for effects and optionally as a sequencer. Entries can be submitted until **midnight 12/31/2018** and a new challenge will be announced on **01/01/2019**.

In **Edition 21**, the module to be used was **Splash** by **Southpole Parasites** in **Two Drunks** mode. The contributions are summarized in a **playlist.**
https://www.youtube.com/playlist?list=PL3uoDdw5f0Iz7-PvW-LGqQ6_t7azHEMvm



Educational Patch Contest Nr. 01

Produce a creative patch (with Youtube video), tutorial video or description for **Nysthis BOH!NGLER** until **January 1, 2019**. Entries can be submitted until midnight. After that, a vote will take place, the winner awaits eternal glory and he will be widely known as the VCV Master. More information at https://www.facebook.com/groups/vcvrack/permalink/287523091907842/

Videos

ablaut:

***Every Sunday** a new **live stream** called **Cable Madness**. (13:00 UTC, 14:00 Central European, 21:00 Shanghai, 9:00 New York) You can find the last video under the following link.*
