

# NEWS of the RACK VCV

key events • new modules • developer news • module videos • contests • and more

Hello everyone in Rack Land,

It's good to be back. The hearing loss was an experience that I would have liked to have done without. And just as suddenly as it came, it disappeared again. And hopefully it will stay that way. Thank you for your sympathy and the encouraging words. As already announced, I summarize weeks 49 and 50 in the newspaper version and weeks 48-50 in the video version. Luckily, not much happened.

And now quickly to the news.

## Developer News

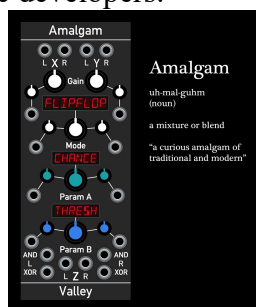

BEST SYNTHESIZERS & MUSIC PRODUCTION GEAR 2018

The Youtube channel Bobeats called for vote "BEST SYNTHESIZERS & MUSIC PRODUCTION GEAR

2018". **VCV-Rack** took **first place** together with Ableton Live 10. Congratulations to Andrew Belt and all the module developers.

**Valley** has announced the signal combiner **Amalgam**. This is to appear this year.

**Hora Music** announced for January **GeCo**, a plug-in development program for VCV-Rack. The manual can already

be downloaded, there is also an introductory video. <https://gumroad.com/horamusic>

## Audible Instruments

has announced the **Tidal Modulator 2**. This is the new edition of Tides from Mutable Instruments and will for now probably appear only in the paid **Audible Instruments Preview**. More details can not be found in the announcement.

Right to the end of the year there will once again be a special price action by **Friedrichs Audio**. Until **25.12.2018** the modules **Floats** and **Hot Bunny** are reduced in price and who publishes a video with them will receive the Sequencer Voltage Tracker free of charge. <https://gumroad.com/friedrichsaudio>

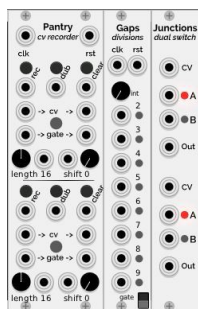

The paid Oscillator **XFX Wave** from **Blamsoft** had added in the version **0.6.1** a CV input for the wavetable. <http://blamsoft.com/vcv-rack/xfx-wave/>

The paid MS 20 Filter **Vorg** by **Vult** can now be switched in version **0.6.20** between lowpass and highpass. Thus, he is even closer to the original. This mode was also implemented in Freak again.  
<https://modlfo.github.io/VultModules>

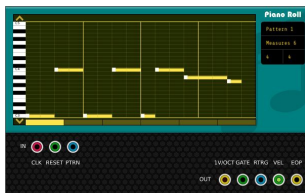

## New modules

**Holonic Systems** released version **Pantry, Gaps and Junctions** in version **0.6.2**.  
<https://github.com/hdavid/VCVRack-Holonist>

In version **0.6.7**, **rcm** added the sequencer **Piano Roll** to its module palette.  
<https://github.com/Rcomian/rcm-modules>

## Challenges

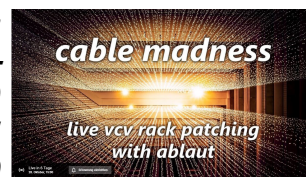

In **Edition 21** of the **Very Cool Patch Challenge**, the **Splash** module of **Southpole Parasites** in **Two Drunks** mode is to use, and submissions can be submitted until midnight on **December 17, 2018**, and a new challenge will be announced on **December 18, 2018**. In **Edition 20**, the module to be used was **bordL** by **bi-doo**. The contributions are summarized in a [playlist](#).

## Videos

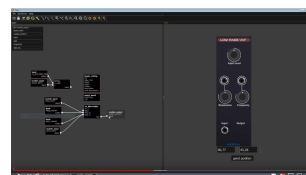

**ablaut:**

*Every Sunday a new live stream called **Cable Madness**. (13:00 UTC, 14:00 Central European, 21:00 Shanghai, 9:00 New York) You can find the last video under the following link.*  
<https://youtu.be/ILILC8vV0LE>

**Hora Music:**

*12 minutes to create a VCV rack plugin*  
<https://youtu.be/wbmveVxu1wE>

**Leonardo Laguna Ruiz:**

*Vult Vorg: Vorgeous high pass filter*  
<https://youtu.be/vKQGOJNimAg>

**Modular Curiosity:**

*Season 2 : Episode 6 Let's build an ambient Euclidean based patch*  
<https://youtu.be/Ke5IdqngYzo>

*EP6 Extended Play*  
<https://youtu.be/sOCtgk6VH4s>

*Season 2, Episode 6 With Turing Machine to generate melodies*  
<https://youtu.be/SeNBiCqNCw0>

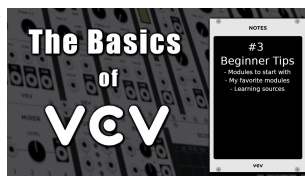

**Omri Cohen:**
