

# NEWS of the RACK VCV

key events • new modules • developer news • module videos • contests • and more

Hello, everyone in Rack-Land,

if you're looking for the links in the text, don't panic, I haven't forgotten them. From now on you only have to click on the pictures if you want to follow a link. I also changed some of the headlines to be able to add more news. There are tutorials that are not videos, or musical ideas that are not a whole piece of music. I am also working on a new layout, but that will probably take some time.

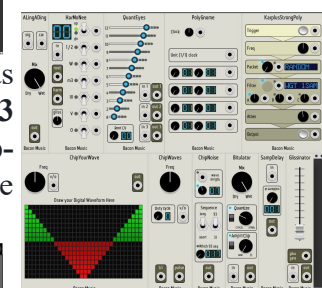

Now to the news.

## Developer News and other News

**Bidoo** made some minor corrections in version **0.6.28** and **cuRt** now works.

**Bacon Music** has released version **0.6.3** of its modules. **HarMo-Nee** is now controllable via CV.

**trowaSoft** has revised **cvOSCcv** and is now at version **0.6.5**.

**Edge** has reworked its modules again and is now at version **0.6.5**.

**Bark** has revised his parametric EQ **1Band** and is now at version **0.6.6**.

The **Via** modules from **Starling** are now available in the Plugin Manager.

**Hora Music** has now opened a **user group** on facebook for all users of its plugin maker **GeCo**.

## New Modules

Just one week after **Expert Sleepers** released 4 Encoder Modules, version 0.6.1 of the **SMUX** module for the Expander 8GT is released.

**DHE Modules** has released in version 0.6.5 the LFO **Blossom**.

rcm has extended its modules in version 0.6.13 with the **SEQ Adapter**. The problem of sequencers skipping the 1st step shall now be a thing of the past.

## Challenges & Actions

### Very Cool Patch Challenge

In **Edition 28**, the module to be used is ASAF-8 by **mscHack**. Entries can be uploaded at midnight **8/4/2019** and a new challenge will be announced the following Tuesday. More information in the official VCV-Rack forum at

<https://community.vcvrack.com/t/very-cool-patch-challenge-edition-28/2564/9>

### Collaboration chain patch game Nr. 1

One World - One Voice did it, VCV-Rack now also has a **musical chain letter**. It all started with **rsmus7**, who also had the idea for this action. He has created a patch and invited to **develop it further**. Branches are definitely desirable, so that completely new things can develop from it. More information about CCPG # 1 is available at <https://community.vcvrack.com/t/new-collaboration-chain-patch-game-nr-1-is-on/2597>

# NEWS of the monthly VCV

Geodesics calls for the Gold Edition Challenge:

==THE CHALLENGE==

Use the **demo patch of Entropia**, and turn it into something of your own, make it evolve, or destroy it as long as the DNA is kept.

== THE DEADLINE ==

**28 April 2019** no timezone – to be followed by one week of vote

==THE REWARD==

A **redesigned gold edition** of the entire Geodesics collection (5 modules). This pack will never be public and will be enjoyed only by the winner of the challenge. In case of a tie, the design will still be different for each winner.

For more information about the rules, see <https://community.vcvrack.com/t/geodesics-gold-edition-challenge/2762>
