NEWS of the RACK vcv

key events • new modules • developer news • module videos • contests • and more

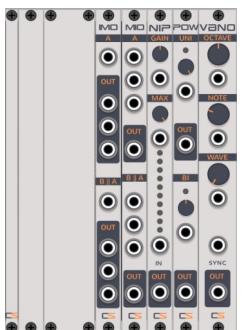

Hello everyone in Rackland,

There are no updates or announcements this week and I haven't found any beta versions either. But that doesn't mean that there is nothing to report. Many videos and patches are waiting to be viewed and tried out, so let's go!

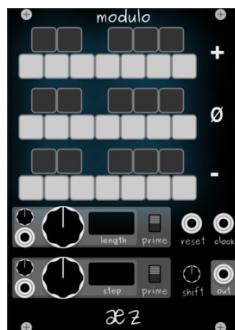

And now for the news

New Modules

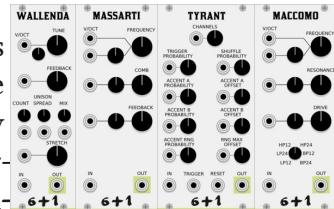

Captain's Sounds is a new developer who has appeared in the library without warning. Version **1.0.3** includes: the blank modules **901**, **902** and **904**; the limiter **Nip**; the **VBO** oscillator and the **Pow** utility module. In version **1.0.4** the multiplier **IMO** and **MIO** are added. This version can be downloaded from the developer's github website.

Also surprisingly published in the library is the Swedish hardware manufacturer **mannik** with VCV rack versions of its modules **SHMIX**, **MASH**, **Dual 3 Channel Mixer** and **Dual Active Multiple**. In addition, the Midi module **Outbreak Link** with which a connection to the hardware Eurorack module **Outbreak** can be established.

New to the library is the developer **az**, whose sequencer **Modulo** I presented last week in beta versions.

StudioSixPlusOne has also been with us in the beta versions for a few weeks now. The Karplus-Strong Delay **WALLENDA**, the Comb Filter **MASSARTI**, the Shift Register **TYRANT** and the Ladder Filter **MACCOMO** are now available from the library.

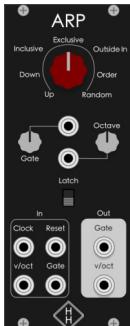

Hora Music has converted another hardware module from **Erica Synth** to VCV rack. The hardware version of the **Fusion Delay**, like all Fusion modules from Erica, is based on the sound of a vacuum tube.

Challenges & Collaborations

Very Cool Patch Challenge

Edition 54 of the **Very Cool Patch Challenge** once again focuses on a single module. This time, a patch is to be created with the **Arp** module from **Hampton Harmonics**. There is time until June 1st and the contributions are summarized as always in a playlist.

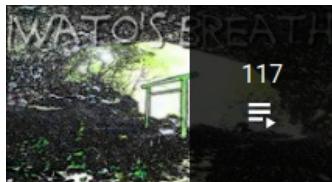

Edition 53 of the **Very Cool Patch Challenge** was all about **Caribbean rhythms**. Participants should be inspired by reggae, samba, rumba, merengue and create a corresponding patch.
