NEWS
of the RACK
VCV

key events • new modules • developer news • module videos • contests • and more

Hello, everyone in Rack-Land,

I must confess, I'm a very impatient person. I just can't wait until modules are officially available. I check github every day to see who has done something new again and I download it and compile it. And indeed, hardly a day goes by without news. I guess the hunter-gatherer's coming through in me.

And now for the news.

Developer News and other News

The **Superbooth 2019** casts its shadows ahead. From **9 - 11 May 2019** this popular fair for electronic musical instruments will take place in Berlin. As already mentioned there is also the possibility to meet other members of the **VCV community** to get to know each other, chat and eat/drink together. **Omri Cohen** has opened a facebook group especially for this purpose.

On **Google Maps** VCV-Rack users can now register on a map. This visualizes where users are situated.

Friedrichs Audio has **reduced the prices** for Floats, Hot Bunny and Voltage Tracker to $10 each and for Oscillator SID to $5. These prices are to be maintained as long as demand is correspondingly high. The sale is still going through **gumroad**.

VCV Rack has also been represented on **reddit** for some time. Among other things, the tradition of the weekly Challenge was revived there. Read more under Challenges and Cooperation.

The **Via** modules of **Starling** have been revised and are now at version **0.6.1**.

New Modules

Lindenberg Research has released version with version **0.6.5** the already announced Sallen-Key Type 35 Dual Multimode Filter **Vampyr**. As always at Lindenberg Research, there are numerous different skins for this.

Holonic Systems has released the Quantiser **Lazy Susan** and is now at version 0.6.4.

Very Cool Patch Challenge

In **Edition 29**, any drum or percussion module (including sampler modules with percussive samples) shall be used to create a patch with an **odd beat** (for example, 5 or 11 beats to a beat) and/or a **polyrhythm**. Contributions can be uploaded until **22 April** and a new challenge will be announced the following Tuesday. As always, the contributions are summarized in a playlist. More information in the official VCV-Rack Forum at https://community.vcvrack.com/t/very-cool-patch-challenge-edition-29/2788

Weekly Challenge #2

As already mentioned, the **VCV Blog** on **reddit** calls for a weekly challenge. Currently, a patch with a maximum of **15 freely available modules** is to be created and this should contain only **3 different notes**. More information at https://www.reddit.com/r/vcvrack/comments/bce5lj/weekly_challenge_2/

Collaboration chain patch game Nr. 1

One World - One Voice did it, VCV-Rack now also has a **musical chain letter**. It all started with **rsmus7**, who also had the idea for this action. He has created a patch and invited to **develop it further**. Branches are definitely desirable, so that completely new things can develop from it. More information about CCPG # 1 is available at https://community.vcvrack.com/t/new-collaboration-chain-patch-game-nr-1-is-on/2597

Geodesics calls for the Gold Edition Challenge:

==THE CHALLENGE==

Use the **demo patch of Entropia**, and turn it into something of your own, make it evolve, or destroy it as long as the DNA is kept. **Attention, a simpler version of the patch is now available** https://patchstorage. com/entropia-easy/

== THE DEADLINE==

28 April 2019 no timezone – to be followed by one week of vote

==THE REWARD==

A **redesigned gold edition** of the entire Geodesics collection (5 modules). This pack will never be public and will be enjoyed only by the winner of the challenge. In case of a tie, the design will still be different for each winner.

For more information about the rules, see https://community.vcvrack.com/t/geodesics-gold-edition-challenge/2762

**CALL FOR SUBMISSIONS:
Drone Day 2019**

After the Winter Sostice Drone **Ben de Groot** alias ablaut now calls for participation in **Drone Day 2019**. This is on **May 25th** and like last year he would like to release a drone mix on Bandcamp for free download. The deadline for contributions is **19 May**. A click on the picture leads to the original article and **further information**.
